INTRODUCTION

OBSTET (OBStetric Skills Training for Emergency Teams) is a multi-professional training package designed by an experienced team of obstetricians actively involved in the instruction of obstetric emergencies and simulation. The workshop covers the management of a range of obstetrics emergency situations likely to be encountered by medical teams in the emergency department setting. The one-day course consists of interactive drills, lectures and workshops that provide 'hands-on' experience of practical skills, team working and decision-making in simulated obstetrics emergency situations including shoulder dystocia, major obstetric haemorrhage, maternal collapse and hypertensive emergencies.

OBJECTIVES

At the end of the workshop, participants will be able to:

- Manage obstetric emergencies relevant to teams in an emergency setting
- Be aware of obstetric emergencies and reduce preventable harm to mothers and their babies

PROGRAMME OUTLINE

Lecture & Skills Hands-on Practice on:

- Resuscitation of the pregnant woman
- The normal delivery & preterm labour
- Breech delivery
- Major Obstetric Haemorrhage
- Hypertensive emergencies in pregnancy
- Shoulder dystocia
- Eclamptic seizure
- Neonatal Resuscitation

CME Points

- 4 CPE points will be awarded

Note:

- Please note that attendance at the OBSTET does not certify competency in obstetrics resuscitation. Participants should practice within the scope of their profession and job description.
- This course aims to clarify that completion does not confer accreditation or certification as a trainer. While it provides valuable knowledge and skills, individuals should seek additional accreditation if certification is a requirement for their intended roles in training or education. It's important to understand the specific qualifications needed in your desired field beyond the completion of this course.
