## SGH Urology 35<sup>th</sup> Anniversary Pre-symposium Workshop

# MIS (Laparoscopic & Robotic) Workshop for Urological Cancers

Friday, 17 November 2023

Procedural Skills Lab 1, Academia (SGH Campus) | Time: 0830 – 1530 hrs

## INTRODUCTION

In the last 20 years, Minimally Invasive Surgery (MIS) has expanded from its niche area to join the mainstream of most surgical specialties. In fact, MIS procedures have become the preferred choices in gallbladder, colorectal and bariatric surgery; and indeed, MIS is even making inroads into traditional bastions of open surgery such as transplant, cardiac and orthopedic surgery.

Surgical training in the 21st century would be incomplete without formal teaching and structured guidance in the technique of MIS procedures. This instructional hands-on animal workshop will allow urology trainees and aspiring Urologists to practice and hone their laparoscopic skills for kidney surgery.

## COURSE OBJECTIVES

- Provide high quality masterclass and hands-on workshop in advanced nephrectomy concepts such as, standard Laparoscopic Partial Nephrectomy and ICG assisted super-selective clamping in Partial Nephrectomy
- Deliver a high value learning experience with online learning modules and hands-on interactive live porcine sessions

## TARGET AUDIENCE

- Urology Residents and Trainees
- Surgeons with exposure to Urological Surgery and would like to learn advanced techniques and skills in Laparoscopic Partial Nephrectomy

## REGISTER BY 29 SEPT 2023

Course Fee:

- Residents – Complimentary
- Others – SGD \$216 (GST Inclusive)

Certificate of Attendance will be issued to those who attend 75% of the workshop
