# DISCOVER THE ANAESTHESIOLOGY RESIDENCY PROGRAMME

Nested within the nation's leading and largest public healthcare cluster, including four hospitals and five national specialty centres, the SingHealth Anaesthesiology Residency Programme (SHARP) provides Residents with a comprehensive environment of high volume and variety of clinical experiences. Our rigorous five-year structured programme will help prepare you to handle and excel in any clinical and academic challenges that might lie ahead. The jewel of SHARP is our vibrant and dedicated teaching Faculty. Mentors are highly experienced and respected clinical or academic leaders in both local and international medical fraternities.

Our Faculty's passion and ability to impart up-to-date knowledge and impeccable skills are renowned and we aim to develop your potential and enhance your strengths; forging you into outstanding Anaesthesiologists of the future. Coupled with leading-edge technology and teaching facilities, the programme aims to empower you with everything you need to pursue your advanced medical training in anaesthesiology.

## YOUR LEARNING EXPERIENCE

SHARP is designed to provide you with maximum opportunities to develop your full potential. You will be exposed to a diverse range of clinical experience through structured subspecialty rotations that will give you the flexibility to meet your individual goals and objectives. You will learn and practice alongside seniors and mentors, always functioning as an invaluable member of the healthcare team. Through timely supervision, nurturing mentors and an emphasis on lifelong learning, you will be equipped with the skills and values expected of a well-balanced, knowledgeable and compassionate consultant.

### DIVERSE AND EXCITING ROTATIONS WITH A WIDE EXPOSURE

SHARP covers a wide range of clinical anaesthesia exposure from Singapore General Hospital (SGH), KK Women's and Children's Hospital (KKH), Changi General Hospital (CGH), Sengkang General Hospital, National Cancer Centre Singapore (NCCS), National Heart Centre Singapore (NHCS), National Dental Centre Singapore (NDCS), Singapore National Eye Centre (SNEC) and National Neuroscience Institute (NNI). This close proximity and wide patient case-mix provides unique multidisciplinary opportunities for rigorous and rewarding medical training, patient care and research.

### A MULTI-FACETED AND DYNAMIC EDUCATION EXPERIENCE

Empower yourself through a rigorous education, structured with the aim of providing ample opportunities for Residents and Faculty to interact and enhance learning with local experts and visiting professors. The wide span of educational activities include morbidity and mortality meetings, incident reporting, intensive care grand ward rounds, subspecialty interactive teaching programmes, critical appraisal of research publications and multidisciplinary learning forums will furnish you with the best of Academic Medicine. You will be well-prepared for the Master of Medicine (Anaesthesiology) and Fellows of the Australian and New Zealand College of Anaesthetists (FANZCA) examinations through the conduct of intensive didactic curriculum, mock viva voce and written examinations.

### MEET THE BIGGEST NAMES IN ANAESTHESIOLOGY

Our Faculty comprises a diverse group of skilled and talented Anaesthesiologists across SingHealth who are recognised leaders in their field, having published and lectured extensively. With a passion for nurturing future specialists, our Faculty is always approachable, supportive and dedicated.

## YOUR CAREER PROSPECTS & DEVELOPMENT

Exciting career options are available the moment you complete your Residency training as an Associate Consultant. As a newly promoted specialist, seize the opportunity to train in your field of subspecialisation through cutting-edge international fellowship programmes. Institutional

and academic appointments are available for our highly qualified consultants as they pursue their careers along clinical, research, educational or leadership tracks.

## A WEALTH OF RESEARCH OPPORTUNITIES

SingHealth possesses a strong research culture, further strengthened by an exciting collaboration with Duke-NUS and the Academic Medicine Research Institute. This collaboration aims to further develop an academic milieu for new discoveries, which leads to improved patient care.

You will get to participate in research with experienced mentors who will provide expert guidance in designing and conducting research protocols of your own in a supportive environment. Above all, you will join the ranks of Residents who have gained opportunities to present their research at various conferences.

## HEAR FROM OUR RESIDENTS

Anaesthesia is the epitome of patient safety and we are our patient's advocate. It sounds simple but this must be achieved through years of hard work and rigorous training. There are subtle differences between each training programme but the key element is in its people. I believe that if you want to be the best, train with the best.

**DR JERRY TAN**

Anesthesiology Residency Alumnus, Year 2017

SHARP has the advantage of a wealth of experienced Faculty to guide and mentor our budding Residents. The Faculty is very encouraging and involved in the medical education of the next generation. The programme is also organised and well structured. In addition, SingHealth has an excellent and broad case-mix that provides the Residents with the best environment for learning.

**DR ANTONIA ZENG**

Anesthesiology Residency Alumna, Year 2017
