

EMERGENCY MEDICINE

RESIDENCY PROGRAMME

*Living My Love
of Medicine*

DISCOVER THE EMERGENCY MEDICINE RESIDENCY PROGRAMME

SingHealth Emergency Medicine Residency Programme is an exciting and dynamic programme, ready to provide you with the finest clinical and educational environment for your Residency training. We are here to nurture Emergency Medicine specialists who are professional yet compassionate – specialists who are clinically proficient, patient-centred and evidence-based in their approach. Through this programme, you will be prepared as a leader in your chosen community.

Here, you will gain both experiential and didactic training and ample patient care experience through a variety of case-mix from SingHealth Hospitals: Singapore General Hospital (SGH), KK Women's and Children's Hospital (KKH), Changi General Hospital (CGH) and SengKang General Hospital (SKH). All training is conducted under the supervision of clinical core Faculty members who are recognised for their scholarly track record and passion for mentoring. You will be given graded, progressive responsibilities as you advance.

If you are compassionate, a good team player, believe in lifelong learning, possess integrity and resilience and enjoy working in a fast-paced environment, Emergency Medicine might just be for you. In return, we guarantee an excellent curricular and educational programme that promotes a well-rounded lifestyle. Many platforms are available for you to cultivate varied interests and develop camaraderie with other members of the SingHealth family.

It is always a race against time to save lives. Emergency medicine physicians work in hospital-based emergency departments, acute clinical situations, pre-hospital environments and a myriad of disaster scenarios. The Emergency Medicine Residency programme at SingHealth is dedicated to the diagnosis and treatment of unforeseen illnesses or injuries. These illnesses and injuries span the breadth of clinical medicine and surgery.

DIVERSE, EXCITING ROTATIONS WITH WIDE EXPOSURE

As the leading and largest public healthcare cluster in Singapore, SingHealth receives more than 500,000 undifferentiated patients with high acuity conditions every year. You will have an opportunity to rotate in highly specialised clinical disciplines, including Singapore's only burns centre, and gain exposure to an interesting and varied case-mix that will provide you with well-rounded training perspectives in Emergency Medicine.

A NATIONWIDE HUB FOR MEDICAL EMERGENCIES

SingHealth's emergency departments function as a single stop for emergencies, well-equipped with 24-hour consultant-based coverage and subspecialty support from

YOUR LEARNING EXPERIENCE

all medical and surgical disciplines. Core and physician Faculty are available on clinical duties, attending to patients alongside you. This helps you to learn the ropes through timely feedback, role modelling and facilitated learning.

UNPARALLELED GROWING AND LEARNING OPPORTUNITIES

Not just trained medical toxicologists, our Faculty includes the largest group of disaster medicine management practitioners involved in national disaster and Hazmat programmes. They are also renowned and dedicated educators with the NUS Yong Loo Lin School of Medicine (YLL SoM) and Duke-NUS Medical School. We offer Residents an unprecedented breadth and depth of clinical learning opportunities. Emergency Medicine Faculty continuously undergo pedagogy development through Faculty Development programmes. You can be assured that you are learning from the best in medicine.

RESEARCH WITH A DIFFERENCE

If knowledge creation is your passion, you have found the right fit. With more than S\$3 million set aside to support Clinician Researchers and signature research programmes with Duke-NUS Medical School, SingHealth's strategic partner, our Clinician Scientists and research team can provide you with the right mentorship and funded research opportunities.

YOUR CAREER PROSPECTS & DEVELOPMENT

Opportunities abound here as an Associate Consultant. You can choose to practice in a tertiary Academic Medicine centre such as SGH or KKH or a regional healthcare institution like CGH and Sengkang General Hospital. You can also opt for a clinical fellowship programme in Paediatric Emergency Medicine with KKH Children Emergency Medicine.

Consultant Emergency Physicians will enjoy the opportunity to specialise in areas ranging from emergency cardiac care and emergency trauma care to disaster medicine and medical toxicology.

As you gain more experience, you will ultimately find yourself providing organisational and administrative leadership in your emergency department.

A WEALTH OF RESEARCH OPPORTUNITIES

Enjoy the best of clinical Residency training and research skills development as you embark on your career. Along the way, you will spearhead the delivery of emergency care to patients.

Our globally renowned Clinician Scientists and research Faculty will mentor and equip you with the skills and knowledge you need, enabling you to become a world-class Clinician Researcher.

If you have a keen interest in research and are passionate about making a difference, find out more about your research opportunities by getting in touch with us today.

HEAR FROM OUR RESIDENTS

I have had an incredible learning experience in the Emergency Medicine Residency Programme thus far. Clinical Faculty are heavily invested in our learning and protected training time is taken seriously, to ensure a balance is struck between service and training. The opportunity to rotate through many various disciplines has also provided me with a good foundation and the confidence to manage a wide variety of medical conditions and clinical presentations.

DR SHAWN LIM

Emergency Medicine Resident, Year 2018
NUS YLL SoM Alumnus

A well-rounded experience that places equal emphasis on the hard skills such as procedure and medical knowledge as well as the soft skills such as communication. As an Emergency Medicine Resident, I attend regular weekly teaching sessions comprising of didactic lectures, simulations and OSCEs sessions. It is heartening to have senior Residents around who are always willing to teach and guide me.

DR WAN PAUL WENG

Emergency Medicine Residency Alumnus, Year 2017
NUS YLL SoM Alumnus
